EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Replace the title with the following: "DATA PROCESSING SYSTEM PREVENTING CONFIGURATION CYCLES TO PERMIT CONTROL PROCEDURE SELECTION FOR ACCESS TO ATTACHED DEVICES".
- Claims 39-40 are hereby cancelled as being directed to a non-elected invention.

Information Disclosure Statement

2. The IDS filed on June 17, 2004 has now been considered and an initialed copy is being sent herewith. The IDS was original filed with two of the cited Non-patent documents missing. However, a subsequent IDS filed on August 23, 2004 included all of the documents listed on the June 17, 2004 IDS.

3. The information disclosure statements filed on 5/27/2004 and 8/23/2004 fail to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the

Art Unit: 2186

relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

Furthermore, the reference titled "Copy of PCT Search Report" lists only references listed elsewhere in the IDS. Consequently, if the deficiencies noted above are corrected, the PCT Search Report will be considered by the examiner, but will not be listed among the references cited as prior art on the face of any patent issuing from this application.

4. The following changes to the drawings are required: for clarity, the empty boxes depicted in Figure 4 should to be identified on the figure itself. In order to avoid abandonment of the application, applicant must make these above drawing changes.

5. The following is an examiner's statement of reasons for allowance:

None of the references cited by the examiner or by applicant in the approved IDS are deemed to teach or suggest, either alone or in combination, each and all of the features of the independent claims, including preventing the completion of a configuration cycle to permit a control procedure selection, especially by another processor, for a given device. Consequently claims 1-38 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
